## EDITORIAL

### HAVE YOU PUT OUT YOUR LANTERN?

Many people read our editorial last week on "Lantern Carrying" and are now making arrangements to catch up with their arrears with the hospital, drug store, doctor, milk man, grocer, butcher, baker, feed man, garage, landlord, agent, freight man, fuel dealer, etc. — some actually came in and paid their subscription!

The editorial read like this:

"In China, according to an old custom, a person whose bills were unpaid at New Year's was obliged to carry a lighted lantern day and night until the bill was paid."

The editorial then urged readers to see their creditors and make some arrangement whereby at least a small amount was paid on arrears each month, thereby keeping their credit good — a very valuable asset in this day and age, if you do any buying on a credit basis.

If you are carrying a "Lantern" due to unpaid accounts, you can improve your standing in the matter considerably by seeing your creditor or creditors without delay and making some arrangement to pay up the arrears as soon as conveniently possible. It is just a matter of a dollar for the Review — we'll be right glad to see you soon!

## WHARF REPAIRS

The Sidney Businessmen's Association is in receipt of a communication from Alan Chambers stating that he has verified the fact that an appropriation of \$4,000.00 is in the Dominion Government estimates for repairs to the Beacon Avenue Wharf at Sidney.

This is indeed good news, particularly to the port committee, W. N. Copeland and William Peddle, who have spent a great deal of time and effort in drawing attention to the need of work and alterations.

J. S. Taylor, M.P. for this district, has personally met the port committee on numerous occasions and has drawn the Public Works Department's attention to the necessary repairs and alterations at this wharf and the committee has also met engineers sent over to examine the wharf. Nothing definite was known as to what the department actually intended to do and Mr. Chambers' letter is certainly good news.

Mr. Chambers, although defeated in the last federal election as a Liberal candidate in the Nanaimo constituency, continues to do all in his power to further the interests of the people of this area.

## THE SIX-FIGURE SALARY

From the Victoria Daily Times.

A United States Congressional Committee has lifted the veil from the salary list of leading business executives. Alfred P. Sloan, Jr., of General Motors, topped the list with \$561,311 as his pay for 1936. Sixteen persons, the report of the committee says, received more than \$300,000 each for the year—nine of them officials of the General Motors Corporation, its president, William S. Knudson, ranking second to Sloan with \$459,878.

The other day, it will be recalled, General Motors Corporation laid off 30,000 of its employees. It is not for us, of course, to try to tell them how to conduct their business, or to try to tell them whether they are right or wrong in their dealings with their employees. All this is their affair. But the observer need not apologize for suggesting that probably not a few of the idle 30,000 will contemplate the pay cheques of these officials with more than a little wrath. It must, at any rate, make them think that something is wrong which gives all to a few and next to nothing to the millions.

## Shirts in Germany

O comrade dear and did you hear,  
The news that's going round—  
How long-tailed shirts are not allowed  
To sell on German ground?

Two inches from the tails are cut  
(They say it doesn't hurt)  
But what a trick in winter time  
To shorten a shirt.

On Russian soil they still are free  
To wear them longer still,  
Who think you now of Germany  
Who swallow such a pill?

By this they save a lot of cloth  
To staunch their blood-lust loaves,  
Or buy more bonds and cruel shells  
And lastly — wooden crotches.

M. T. BIRD.

## NO. SAANICH RECREATIONAL CENTRE OPENS

Gymnasts Welcomed  
The Reopening Last Friday Evening

Enthusiastic gymnasts welcomed the reopening of the No. Saanich Recreational Centre last Friday evening.

Following a short period of re-opening acquaintanceships after the recent holidays, the members were initiated to a new series of snappy gymnastic exercises, some of which were conducted by visiting instructors. In addition the members enjoyed new and interesting games. A hearty welcome was given all former members by the instructors, who expressed the wish that present members would extend an invitation to all interested to come along and to share in the social intercourse and in the fun of a really good time in their local centre.

So, if you are gymnastically inclined, turn out next Friday evening, January 14th, at 7 p.m., for a couple of hours of busy, pleasant and healthful activity.

## WHITEWASH FORMULA

Said To Retain Brilliant Lustre For Many Years

This formula is used by the U.S. Lighthouse Board for outside work and is said to retain its brilliant white lustre on stone, brick or stucco for 20 or 30 years.

"One-half bushel of lime is slaked in boiling water, keeping it covered to keep in the steam. Enough water should be used to keep the lime nearly covered, though it should not be 'drowned' while slaking. If water is added as the lime slakes it will crumble and flake slowly into a loose white mass, to which enough water should then be added to make a paste, stirring with a stick at the same time. When completely slaked, it should be put through a strainer to remove lumps and dirt. Now add a peck of salt, about 15 lbs., previously dissolved in hot water. Boil 3 lbs. of rice to a thin paste, strain it and stir it in while the solution is hot. Have a pound of good glue dissolved by soaking it the night before in hot water; then pour off the extra water and stir it to dissolve it. Into this glue solution stir 2 1/2 lb. of whitening then add the glue and whitening mixture to the lime and salt. Now dilute for use by adding 5 gallons of hot water; stir well, and let it stand for a few days, covered to protect it from dirt. For best results the mixture should be heated before applying it."

thing but the decorations — which was what we wanted them to do. Afterwards they played games until 7 o'clock and Nora Deveson won the pair of lanterns as the prize for the treasure hunt. Then came the big moment of the evening when Johnny Gow began his Marionette show. The performance was greatly enjoyed by the kiddies and the "grown-ups" who came especially to see it. At the close of the entertainment the boys and girls were given balloons and gay red and green parcels of fruit and candies. After singing "God Save the King" they all went home tired but happy. The club extends a hearty vote of thanks to Mrs. H. G. North and her helpers for their efforts in making a grand evening for the members' children.

To assist the local volunteer fire brigade Victoria wrestlers have volunteered to put on a big night at the North Saanich Service Club Hall on Thursday, February 3rd, and the Service Club has volunteered the use of the hall — now it but remains for the citizens of North Saanich to volunteer to be present for a night of action and fun.

A competition had been arranged for practice. Three teams were chosen by Chief Morgan, Arthur Gardner and Bob Shinde. The practice run was to take the Packard complete with equipment and the Ford truck carrying 2 1/2 inch hose, from the fire hall to Steeple's Hall. There firemen raised the ladder to the roof, the booster hose was run up to the peak of the roof and the pump started and water played on the roof. Then the 2 1/2 inch hose was connected to the hydrant and bid without kinks or twists to the peak of the roof. The hydrant was not turned on.

The winning team, under Chief Morgan, completed the test practice in three minutes.

Each team was composed of eight men, one official driver, and one chief, the latter two did not help with the equipment, the driver stayed with his truck and the chief directed operations.

After practice all returned to (Please turn to Page Four.)

## "You can't stop stoking a steam engine" said Wrigley

Interviewed, and asked to what he attributed his phenomenal success, the late Mr. Wrigley, of chewing gum fame, replied, "To the consistent advertising of a good product."

"But," asked the reporter, having captured practically the entire market, why continue to spend vast sums annually on advertising?"

Wrigley's reply was illuminating. "Once having raised steam in an engine," he stated, "it requires continuous stoking to keep it up. Advertising stokes up business and keeps it running on a full head of steam."

This applies to your business, too. Don't make a secret of your product. Tell people all about it. Tell them what it does. Tell them its advantages. Tell them where to get it. Tell them through the Press and keep on telling them.

## DOTS AND DASHES FROM 'CANADA 1938'

Walter Bowles, "Canada-1938" roving radio reporter, will be heard from Station CFAC, Calgary, Friday evening, January 14th. The genial reporter furnished quite a surprise in Timmins, Ontario, recently, on the occasion of the fourth anniversary of Station CKGB. The special anniversary program featured a sketch by Imperial Tobacco's itinerant broadcaster who drew rounds of laughs with the humorous tale of "Little Albert and the Lion" complete with gestures and accent. "Canada-1938" mixed choir is really a unique organization. Within the choir itself are four distinct vocal units, a male quartet, a male octet, an octet of mixed voices and a harmony trio of girls. Hours of rehearsals are required to achieve vocal blend, diction, phrasing and microphonic balance. As the program goes on the air a tall, scholarly-looking young man takes his place at a microphone in an Uptown Montreal studio and sits there standing-by for any eventuality. It's his job to fill in should communication facilities prevent the broadcast of on-the-scene news reviews by prominent European correspondents. For nearly two seasons European pick-ups came through as planned. Then came Christmas Eve, with a pick-up in Jerusalem. On the appointed cue from Montreal, Cario available but trouble encountered in the relatively short link on to Jerusalem. Producer Victor George immediately cuts-in with well chosen words and presents the man who had waited two seasons for this eventuality. In an unhurried and pleasing tone Jack Ralph talked of Christmas and of Santa Claus, but it was truly as much Jack's night as Santa's.

Fourteen sites were surveyed before Treasure Island, central in San Francisco Bay, was selected for a 1939 World's Fair and later use as an airport.

Sunday, January 16th

"LIFE" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday.

The Golden Text is: "In the beginning was the Word, and the Word was with God, and the Word was God. . . . In him was life; and the life was the light of men" (John 1: 1, 4).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "But, beloved, be not ignorant of this one thing, that one day is with the Lord as a thousand years, and a thousand years as one day" (II, Peter 3: 8).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Except for the error of measuring and limiting all that is good and beautiful, man would enjoy more than three-score years, and ten and still maintain his vigor, freshness, and promise. Man, governed by immortal Mind, is always beautiful and grand. Each succeeding year unfolds wisdom, beauty, and holiness."

**"It was worthless until properly advertised"**

For a long time it was a failure. No one would buy a Gillette Razor. In desperation King C. Gillette began giving razors away. But it did no good.

It was not till nearly ten years later, when an advertising expert came along that Gillette Razors began to boom. In a few years Gillette was a rich man. His company came to have a capital of £6,000,000, with a profit of £1,500,000 and factories all over the world.

One fact stands out: **THE IDEA WAS WORTHLESS UNTIL PROPERLY ADVERTISED.**

Why shouldn't you benefit by advertising? Harness the "Power of the Press" to your own problem. Tell people about your product or service. And keep telling them! It's the hammer, hammer, hammer that brings the business in. Remember —
